Projects

EVENTEASE | WEB DEVELOPMENT | Apr'24 - Jun'24

- A comprehensive event management web application developed as a team project to address issues faced by college clubs and associations in organizing and running events. Features event creation, management tools, and streamlined workflow for educational institutions.

PERSONAL PORTFOLIO | WEB DEVELOPMENT | Jan'25 – Present

- Built and maintained a personal portfolio website showcasing my projects, skills, and achievements. Implemented a clean UI, responsive design, and SEO-friendly structure to highlight my work in web development and software engineering.

WEBSAVER APP | MOBILE APP DEVELOPMENT | Feb'25 - Apr'25

- Simple Android app that lets users save and open websites as app-like experiences using WebView. Perfect for accessing frequently visited sites without cluttering the browser. Features clean UI, smooth performance, and works like a browser for sites without official Android apps.

WEBSITE SAVER APP | UI/UX | FIGMA | Jan'25 – Jul'25

- Designed the complete UI/UX for an Android app in Figma, emphasizing intuitive navigation and minimal design to boost productivity by helping users efficiently save, organize, and access website links.
